Dear Harold,

I just read The National Enquirer article on your new discovery. Three cheers! Keep pushing away at them.

I wholeheartedly agree with you that JFK was hit with fragmenting bullets. How did you find out it was Kenney who ordered the non-tracing of the bullet path?

I'm anxiously awaiting your new book! What do you make of the two pseudo-assassination attempts on Ford? They're getting ready to hit (& kill) the liberal Democratic nominee, that is if martial-law isn't imposed by then, & if a liberal is nominated or about to be.

Best -
